# CHHAYAnke's efforts towards building a compassionate world takes community service projects to schools

Nidhi Mishra, Founder & Director of the trust was invited to Oakridge International School's 8th Grade Community Services Showcase Program on 11th March 2021. As an educator herself, her vision for community services is quite extensive. In her address to the students, Nidhi Mishra stated the following - "I believe that empathy, sharing, caring, life skills & life values are the core of doing community services and it should be inculcated in children from very young age. Schools must involve community services in the curriculum to make sincere & good human being for the bright future of the Nation. Working for the community is the best way to express your gratitude towards the society and environment. I wish that all kids learn community services from early years to make "A Great Country" & to become young, dynamic and responsible citizens of the society and make this world a better place to live in."
