

Annual Report 2016

Finding Like Minded Friends

2016 was a foundation year for CHHAYAnke. Searching like minded friends and understanding the motto, aim, objectives & ideas behind the goodwill work was the base of the women's organization.

We ladies started meeting each other. Started sharing the ideas and vision for charity work. We were trying to figure out our capabilities, expertises & issues which are existing in the society and making our strategies to work ahead.

CHHAYAnke formed some ethics for the group, those ethics are still same for us. The main aim was to do good work for the society by women's without any profit or business. We formed a small group and stated working with food distribution for needy. Every Sunday our members used to cook food at home and before our lunch time we started distributing to labors near 12 noon. "Home cooked fresh food" on any special day was our primary goal during first year of organization. Distribution for food gave us eternal satisfaction & peace.
